Digital Photography Pioneer Stephen Johnson's Work on Display at The Pacifica Center for the Arts

"Life Form" Exhibition Opens in Pacifica, CA on July 21st, 2018

PACIFICA, CA – A public Opening Reception featuring an extraordinary collection of new works by noted digital photographer Stephen Johnson will be held on July 21, 2018 from 12:00 to 5:00 PM (PST) at the Pacifica Center for the Arts, located at 1220 Linda Mar Blvd. Pacifica, CA 94044. An artist's lecture will occur 3:30pm.

Five years in the making, the **Life Form** Series builds on Mr. Johnson's longtime fascination with organic form and design. Finding solace in the natural world, Johnson has incorporated his respect for all living things in these rich, detailed images which demonstrate again his mastery of photography. The large, bold and colorful **Life Form** images reveal a fascinating real world around us, rarely seen at this clarity, detail and appreciation. The exhibit will be on display through December 31st, 2018.

Additional information about the images and the exhibition is available on the web at <http://www.stephenjohnson.photography/life-form>.

Following the Opening Reception viewing may also occur during regular gallery hours which are Tuesday - Saturday, from 10AM until 5 PM. The studio gallery may be reached by phone at (650) 355-7507.

Mr. Johnson earlier helped birth the era of digital photography via his lush, large format digital images captured throughout the U.S. national parks system in the 1990s. He has consulted and advised many major photography industry stalwarts through their transition into the modern digital photographic era. Johnson has maintained his commitment to his "real witness of real scenes" approach to photography and has taught that ethos to thousands of students in his [photography workshops](#).

Stephen Johnson is a **Canon Explorer of Light** as well as a landscape photographer, designer and teacher. In 2003 he was inducted into the *Photoshop Hall of Fame*. X-Rite named him as a founding member of their exclusive *Coloratti* color experts group in 2007. Stephen's books include *At Mono Lake*, the award winning and critically acclaimed *The Great Central Valley: California's Heartland*, *Making a Digital Book* and *Stephen Johnson on Digital Photography*.

This "Life Form" exhibition is available for touring beginning in 2019. Please email info@sjphoto.com for details and visit <http://www.stephenjohnson.photography> for more information.
